PROFESSIONAL SUMMARY

Information Technology graduate seeking a position as a Full-Stack Web Developer. A passionate developer of modern, responsive web applications. Built user interfaces and scalable back-end systems with React, Next.js, Node.js, Turso and Supabase. Better development with AI tools and delivering quality results all the time.

PROFESSIONAL EXPERIENCE

Sattlink Cable TV and Broadband

Feb 2025 – Apr 2025

On the Job Training

EDUCATION

Tertiary Education

Aug 2021 – Jul 2025

Pampanga State University - Lubao Campus (Bachelor of Science in Information Technology)

SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** HTML, CSS, React, Tailwind CSS, Next.js
- **Databases:** PostgreSQL, MySQL, Supabase
- **Tools:** Vercel, GitHub

PROJECTS

TNJ: Motorcycle Shop Inventory & Sales System

- Stack: Next.js 16, TypeScript, Tailwind CSS, Turso database.
- Auth: Two roles, Admin and Cashier. Password lock screen, session in app memory.
- Sales: Scan barcode, add to cart, select payment (Cash/GCash/Card), auto-generate PDF receipt.
- Dashboard: Daily, monthly, yearly revenue, low-stock alerts, and 7-day sales trend chart.
- Inventory: Add, edit, delete products, categories, and suppliers. Stock changes are logged

KumpuniGo: Community Driven Directory System

- Stack: Next.js 14, TypeScript, Tailwind CSS, Supabase, Leaflet map, Nodemailer. Deployed on Vercel.
- Auth: Google sign-in only. Banned users are blocked. Session checked on every page.
- Submission: Fill form, drop a pin on map, upload photo as proof. Entry stays pending until reviewed.
- Admin Panel: Approve, reject, or edit shop listings. Every decision emails the contributor.
- Anti-Scam: 3-strike system auto-bans users who repeatedly submit fake entries.

Lubao Community Share Hub: Community-Based Tool Lending System

- Stack: Next.js 15, TypeScript, Tailwind CSS, Turso database, JWT auth, Nodemailer.
- Auth: Three roles User, Admin, Superadmin. New users must upload a government ID for verification.
- Tool Sharing: Users list tools for borrowing. Each listing needs admin approval before going live.
- Borrowing: Send a request, choose payment (Free or GCash), upload screenshot if applicable.
- Admin Panel: Manages pending tools, unverified users, transactions, and reports. Can suspend or ban users.
